

CUSTOMER ENGINEERING

Combining on-floor data with advanced analytics unlock new approaches to monitoring and maintenance, adapting to dynamic conditions, predicting accidents and recommending preventive/prescriptive actions.

Service Planning

- Automated reports can be blended and arranged to correlate with the suitable processes of the hospital.

Billing

- There will be zero fraudulent cases and duplicate entries during billing.

Finance

- We will provide assistance to upload data in the right template for financial forecasting.

Human Resource

- We train staff on HAP software and installation procedure.

Marketing

- Sales targets and revenue numbers entered by sales representative will be safe and secure.
